

Professional Experience

Software Engineer
iLink Digital

Apr 2025 - Nov 2025

- Recreated 40+ SQL Server stored procedures and scalar functions in Microsoft Fabric Warehouse, cutting migration time from 5+ weeks to 2 weeks and enabling scalable client reporting
- Migrated and consolidated 80+ data sources - including 30+ SQL Server tables, 20+ oracle tables and 30+ manual Excel/CSV files - into structured, reporting-ready tables within Microsoft Fabric
- Implemented a 3 layer Medallion architecture within a single Lakehouse - comprising 30+ Bronze, 20+ Silver and 20+ Gold tables - enabling the delivery of 40+ client-facing reports with improved data quality
- Partnered with clients and 2 cross-functional teams to gather requirements, troubleshoot data issues and deliver timely and accurate reporting solutions

Software Engineer Trainee
iLink Digital

Feb 2024 - Mar 2025

- Recognized with the iLink Digital Award - Rising Star for delivering high-quality data solutions and earning appreciation from senior leadership and clients
- Migrated and consolidated 60+ data sources, including 30+ SSMS tables and 30+ manual Excel/CSV files from SharePoint and Azure into structured, reporting-ready tables within Microsoft Fabric
- Implemented a 3-layer Medallion architecture across 2 Lakehouses, supporting 2 reporting phases and enabling delivery of 40+ reports in Phase 1 and 60+ reports in Phase 2
- Designed and automated a quarterly data collection pipeline using Fabric - generating 90+ Excel templates annually across 7 business units, reading submissions back into tables to ensure up-to-date reporting
- Built and deployed 4 data pipelines across bronze, Silver and Gold layers using Microsoft Data Factory and Spark notebooks to enable scalable automated analytics workflows

Data Intern
iLink Digital

Oct 2023 - Jan 2024

- Supported 3 senior analysts with data preparation, validation, and execution of data analysis workflows across real-world analytics projects
- Extracted data from multiple sources through pipelines, performing data cleaning and transformation to ensure high-quality datasets
- Independently designed wireframes in Figma and developed 2 client-ready dashboards in Microsoft Fabric tailored to the oil and gas vertical
- Applied Databricks, Python, SQL, Azure, Snowflake, Microsoft Fabric and Power BI across real-world analytics projects, building hands-on expertise in end-to-end data workflows

Project Intern
FS Engineers Pvt. Ltd

Jul 2022 - Aug 2022

- Coordinated soil exploration projects for an engineering consultancy company
- Liaised between clients and senior management on client requirements
- Oversaw the creation and submission of soil findings reports in a timely manner
- Managed and followed up on payments upon project completion

Intern
Chennai Volunteers (NGO)

Jun 2021 - Jul 2021

- Collated and disseminated verified information through the CV COVID Resource Guide to help citizens navigate critical resources during COVID-19
- Led collaboration with the Coalition team and 5 interns on key deliverables, overseeing task delegation, performance reports, and time management
- Orchestrated communication between 3 senior leaders and 5 interns to maintain seamless information exchange

Education

Boston University
Master of Science, Applied Business Analytics

Jan 2026 - May 2027

University of London, Singapore Institute of Management
Bachelor of Science (Honors), Economics and Management

Aug 2020 - Jul 2023

Awards

Winner – 12th ABA@BU Hackathon
Boston University

Mar 2026

Rising Star Award (Data & RPA)
iLink Digital

Aug 2025

Certifications

Microsoft Certified: Power BI Data Analyst Associate (PL300)
Databricks Certified Data Engineer Associate
Microsoft Certified: Fabric Analytics Engineer Associate (DP600)
Generative AI Fundamentals - Databricks Academy Accreditation
Databricks Lakehouse Fundamentals - Databricks Academy Accreditation
Bright Network Internship Experience UK
Accenture Data Analytics and Visualization Virtual Experience (Forage)

Technical Skills

Languages: Python, SQL, R, PySpark
Data Engineering: Microsoft Fabric, Databricks
Visualization & Reporting: Power BI, Microsoft Excel, Figma
Workflow & DevOps: Jira, VS Code, GitHub, Git
